Ontario Racing Commission

The Honourable Monte Kwinter
Minister of Consumer and Commercial Relations,
Parliament Buildings,
Queen's Park,
Toronto, Ontario.

Dear Mr. Minister:

We are pleased to submit this thirty-sixth Annual Statistical Report of the Ontario Racing Commission, dealing with the operations of the Commission during 1985.

Highlighting the 1985 racing year was the ongoing spectacular success of the Ontario Sires Stakes program, which continues to be the outstanding story of any government-racing industry program in North America. Attendance was up two percent and the betting handle increased by 26 percent. More horses than ever were entered in these events.

Growth of the Thoroughbred Racing season was reflected in eight more racing days being added to the Fort Erie schedule, bringing it to a 78-day meet. The additional eight days mean 4,000 more person days of work during the summer.

Intertrack wagering proved successful, particularly between Greenwood Raceway and Mohawk Raceway. Ontario is one of five major North American racing jurisdictions to use this technological advance and is acknowledged a leader in its implementation.

Federal legislation permitted betting on foreign races for the first time. Simulcasting of Breeders Crown races was successful, as was the introduction of betting on Breeders Cup Race Day. Both programs offer great benefit to Ontario tracks and farms.

Yours faithfully

Frank Drea

Improvement Programs

The Province of Ontario receives a portion of every dollar wagered on horse racing in Ontario in accordance with the Race Tracks Tax Act. The amount of this tax is 7% on all types of wagers other than triactors which are taxed at 9%. In other words, 7¢ out of every dollar wagered goes to the Province with the exception of triactor where 9¢ is taken out.

In 1985 2% of the total amount wagered in 1984 or 2¢ out of every dollar was rebated back to the industry by the Government; in the case of triactor bets 4¢ out of every dollar wagered on triactors in 1984 was rebated.

This rebate is known as the Race Tracks Tax Sharing Arrangement and is under the direction and control of the Ontario Racing Commission.

Highlights of the 1985 Program

Standardbred

■ Breed Improvement Section:
Fifty percent of the 2% rebate, $4,304,250 was allotted for the funding of this section of the program which includes the Ontario Sires Stakes, Trillium Series, Breeders' Awards and a promotion and public relations section. These programs are dealt with extensively elsewhere in this report.

■ Overnight Purse Supplements:
After provision for equine research, 50% of the 2% rebate, $5,014,250 was declared to overnight purse supplements; as well the additional 2% triactor rebate $2,240,400 was allocated for overnight purse supplements to the track where it had been generated.

These supplemental purse grants and their payment to the owner of competing horses in Ontario is an encouragement to investors in the industry to continue to purchase better racing stock; as well these grants help to offset the increasing operating costs of owners.

Thoroughbred

■ Breed Improvement Section:
In 1985, 35% of the 2% rebate, $2,217,200, was allocated to the Breeders' Incentive Section of the Thoroughbred Program. These monies funded purse supplements to selected stakes races, filly stakes, selected colt stakes, Ontario Sires Stakes races and breeders' awards and the Yearling Sales Stakes.

■ Overnight Purse Supplements:
Overnight purse supplements in 1985 amounted to 65% of the 2% rebate plus the additional 2% triactor rebate which totalled $5,298,200 over the past year.

By supplementing thoroughbred purses paid to owners, the Commission and Provincial Government are encouraging owners to continue to compete in Ontario as increased purses help offset increased racing costs and keep Ontario Thoroughbred purses competitive with other jurisdictions and one step ahead of inflation.

Equine Research

The Ontario Racing Commission paid $165,300.00 Equine Research grants to the Veterinary College at the University of Guelph. A total of $84,000 was used for research projects and the balance of $81,300 was allocated to capital expenditures on the new Equine Research Centre.

The Ontario Racing Commission approved the following Equine Research projects proposed by the Ontario Veterinary College under the direction of the Associate Dean, Research and Resources, Dr. R.A. Willoughby.

Respiratory and Cardiovascular Disorders

■ Early detection of acquired coagulation abnormalities in horses with gastrointestinal disease (colic).
■ The development of ultrasound techniques in the clinical horse.
■ Purification of protective antigens of *Corynebacterium equi.*
■ The significance of equine influenza Type A-1 and 2 viral infection on the pathogenesis of chronic small airway disease in the light horse.
■ Stress testing for diagnosis and prognosis purposes in horses with early signs of respiratory dysfunction.
■ A study of inflammation in the horse using a skin model.
■ The pathogenesis and prevention of *Corynebacterium equi* pneumonia.
■ Study of lavage and biopsies for diagnosis of respiratory diseases.

Breeding Efficiency and Infertility

■ Genetic improvement of the Canadian hunter for height, confirmation and development.
■ The isolation, identification and synthesis of estrous pheromone in the mare.
■ Leptospiral abortion in horses.
■ Endocrinology of gestation in the mare.
■ A study of the effect of a synthetic prostaglandin Fenprostalene on ovulation control and subsequent luteal development in the mare.

Growth, Development and Performance

■ Restoration of abduction of paralyzed equine arytenoid cartilage (Phase 2)
■ A pharmacological study of the equine hoof in relation to the etiology and therapy of laminitis.
■ Clinical research in equine joint disease.
■ Microvascular free skin flaps in the horse.
■ A collaborative prospective study of equine post-operative lameness.
■ Maximizing "cushion effects" of dirt surfaces for thoroughbred racing.
■ The anthelmintic control of strongyles and tapeworms in horses.
■ Evaluation of systemic effects of topically applied atropine in the horse.

Thoroughbred Improvement Programs

Thoroughbred Improvement Program

The 1985 Thoroughbred Improvement Program rebated to the industry 2% of the total amount wagered in 1984 in the form of Racing and Breeding Incentives and overnight purse supplements. The Ontario Racing Commission in conjunction with the Racing and Breeding Industry determines the emphasis that the program will take. The Thoroughbred Improvement Program was designed to showcase and improve the Canadian-breds, enhance thoroughbred racing in Ontario, encourage breeding to stallions standing in the province, and to foster investment at Woodbine Sales and in Canadian-breds in general.

By giving strong emphasis to the Canadian-breds, the program helps to enhance the money earning line of pedigrees thus increasing the value of Canadian-breds and their progeny in Canada and abroad. With the exception of two recently added stakes, the minimum purse for a stakes race for Canadian breds is $70,000 added.

A vital component of the program is the Ontario Sires Stakes which are restricted to progeny sired by a stallion standing in Ontario and owned or leased by an Ontario resident. The success of this incentive program can be judged by the recent addition to the local sire ranks of such stallions as Always Run Lucky, Bold Ruckus, Bridle Path, Commemorate, Great Gladiator, Sain Et Sauf and Snaafi Dancer to name a few.

The Ontario Sires Stakes are a series of ten races restricted to progeny of a stallion standing in the Province of Ontario and registered with the program at the Ontario Racing Commission. The stallion must also be owned or leased by an Ontario resident. A popular bonus of this program is that although you must breed to an Ontario stallion, the foal does not have to be Canadian-bred to run in these races. This benefits the stallion owner by attracting out-of-province mares and the breeder as regardless of where the foal is dropped, it is eligible for these races.

As a major indicator of the health of the industry, statistics on sales ring activity can be used to gauge business trends and the effect of the improvement program funds. The increase in value of the Thoroughbred stakes program as a result of the government rebate program has had the effect of improving the pedigrees of Canadian-bred and Ontario-sired horses which in turn improves their marketability and performance in the sales.

Woodbine Sales

Woodbine Sales, the province's major Thoroughbred sales company, benefits from the improvement program through two stakes restricted to sales graduates. This promotes the sale and increases the earning potential of horses that pass through the sales ring.

The value of Thoroughbred horses sold in Ontario sales to foreign interests increased 92% between 1984 and 1985. In 1984, 91 horses were sold for export for a total value of $4,084,500 and in 1985, 94 horses sold for a total value of $7,866,000. The increase in the number of United States and overseas buyers at Ontario Sales in the last number of years reflects the increased attractiveness of the 'Made in Canada' product.

Promotion And Public Relations Budget

In 1985 a Promotion and Public Relations Budget of $235,000.00 was allocated to the Standardbred Industry to promote the Ontario Sires Stakes program. A committee made up of three nominees, one from the Ontario Racing Commission, one from the Canadian Standardbred Horse Society and one from the Standardbred Improvement Association, oversees the distribution of the funds. In 1985 the firm, Sportswood Communications, was contracted to provide media coverage of the Ontario Sires Stakes events.

Interprovincial Series

The Quebec/Ontario Sires Stakes Challenge was established in 1983 to race the best pacers of the Ontario Improvement Program against the best pacers of the comparable Quebec program. The year 1985 proved once again to be a banner year for the Ontario product. Quebec and Ontario's two and three-year-old pacers competed in a series of four races in late September.

Ontario Sires Stakes — Standardbred Stallions

The foundation of the Ontario Sires Stakes program is the registration of stallions with the Ontario Racing Commission. Any foals resulting from a registered stallion is then eligible for the Ontario Sires Stakes races with purses ranging from $25,000 to over $100,000. To be eligible to the program the stallion must be owned by an Ontario resident or leased to an Ontario resident for a period of not less than 5 years.

Ontario Sires Stakes

The Ontario Sires Stakes program was established in 1974 and consists of a series of 13 races for each division, totalling 104 races during the course of the summer season. Eligibility for the Ontario Sires Stakes is restricted to progeny of stallions standing in the province and registered with the Ontario Racing Commission. Yearlings must then be nominated by May 15th of their yearling year and sustained to race either as two-year-olds or as three-year-olds. Nominating and sustaining fees are collected and then distributed together with the Improvement Program funds in the form of purses.
